Don't you know that Dr. Lincoln Holley who lectured here during institute week was a most remarkable man. If there was any criticism to be volunteered it would be for the vacant seats in front of him and not of anything coming from him. There was a good attendance of teachers when he spoke, and to his home. a sprinkling of others, but every chair ought to have been filled. Many lectures have been attended at usual prices that could not touch what could have been obtained free when he spoke. If the college authorities had realized what it was they would have certainly adjourned study so that the college boys might have had the benefit of hearing these lectures. It might be said that Dr Hulley recited column after column o

This proposition is be. coln for President of the United States yond dispute. Much valuable time is being wasted, for work on the digging ought to be begun as soon as possible That Columbia held us up and tried to rob us, is true, and the United State could only be true to herself by resisting the hold-up. But the situation smacks of comic opera and bouffe when the fact develops that the Rough Rider knew of the revolution being hatched in Panama compied that position for over forty years, to secode from Columbia. That would until he retired a year or two ago. He to secede from Columbia. That would make him an accessory before the fact. The latest news is that Columbia, judging others by herself, has come to th nelusion there is no honor among thieves, and talks of presenting the canal to us for nothing if the United States will help to crush the revolution in Panccessory before the fact.

It is to be hoped that this great country will come out of the situation with honor. We ought to be in a position to make the thieves and boodlers realize what honor and honesty is. #### Taken by Storm.

(Written for the Compiler) On Tuesday evening after supper we sat with paper in hand enjoying our new children, C. A. and W. E., York, C T home at Fairfield. When suddenly thump thump, thump, was heard at the back door. Aroused and somewhat alarmed we opened the door and behold one like Santa Claus entered, introducing one, two, three, until about fifty persons wedged themselves with packets, baskets, and bundles, so closely about us that ever though some were comparative strangers force of circumstances brought us all very close together, as friends.

As best we could at such a moment, were welcomed to share as much parson age hospitality as they could find room to enjoy. Alter ordere were given, charges made, arms stacked and freedom declared appearances changed. Here and there were ups, some with serious faces, arranging for Xmas services—discussing plans for shurch work, or observing the move of an opponent on a game board-others at the piano playing and singing—still others is maller groups and different music. This medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but it makes permanent cures.

Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and all liver troubles, that L. M. Buehler is willing to return the price paid in every case where it does not give relief.

So great is the demand for this swelfe. It does not give relief.

So great is the demand for this specific that L. M.
